

COMPATIBILITY LIST OSRAM SUBSTITUBE® T8 ADV UO HF

OSRAM SubstiTUBE® T8 ADVANCED UO HF 1.5m Gen8

Important notice:

The compatibility list is based upon testing conducted by the manufacturer in a lab simulated environment, and the results can vary in certain field applications due to a number of factors.

LEDVANCE does not take over any responsibility, warranty or liability that this results can also achieved by using the devices under other conditions, or when using successor models of the tested devices, or different models of the same manufacturer. In case of non-observance of the instructions, safety risks like overheating of SubstiTUBE® or ECG may occur in rare cases. Luminous flux may change in dependency of used ballast. This lamp is designed for general lighting (excluding for example explosive atmospheres). Since only the lamp is replaced there is no constructive modification to the luminaire. The temperature range of this lamp is more restricted. In cases of doubt regarding the suitability of the application the manufacturer of this lamp should be consulted.

Warning: It is mandatory to operate OSRAM LED Tubes only with compatible ECGs listed at https://www.ledvance.com/professional/services/led-lamps-compatibility/ecg-

<u>compatibility/index.jsp</u>. File name: Ballast Compatibility list SubstiTUBE HF T8 ADV UO 1.5m Gen8. LEDVANCE does not accept any responsibility, warranty or liability when using ECGs not mentioned, marked as non-compatible ECGs or when using successor/different Reference No. models of tested ballasts.

OSRAM OSRAM

How to check and read compatibility list correctly

Step 1

- · Check exact type of ECG in the luminaire before installation
- · Check ECG name

· Check exact IC-#

A63948601DG

Step 2

· Please note that there are many ICs (Ident Code) under one EAN

Using different IC-# of ECG can lead to different compatibility result

Step 3

6

Find the LED Tube in the list
